

Off-Street Parking in Bartlett

General

See the Zoning Ordinance, Article VI, Section 12, for Minimum Off-Street Parking Requirements.

Accessible Spaces

Bartlett has adopted the following as the standard for providing parking spaces accessible to handicapped persons. The number of such spaces required is as follows:

Total Spaces in Lot	Minimum Number of Accessible Spaces
1 to 25	1
26 to 50	2
51 to 75	3
76 to 100	4
101 to 150	5
151 to 200	6
201 to 300	7
301 to 400	8
401 to 500	9
501 to 1,000	*
1,001 and over	**
* two percent (2%) of total	
** 20 plus 1 for each 100 over 1,000	

An accessible space has a minimum five-foot-wide (5') access aisle alongside the parking space. Two accessible spaces may share a single access aisle.

A "van accessible" space has an eight-foot-wide (8') aisle alongside the parking space.
One in eight accessible spaces must be "van accessible."
